Gabrielle Filloux

"Gabrielle Filloux is a design genius. I came to her with no idea what I wanted and she practically nailed my dream website on the first try. She's **easy to work with, thorough, and has a unique eye**. I would recommend Gabrielle to anyone and everyone's who's looking to create a sleek, individualized website while having the experience feel utterly effortless."

Gab designed my dream website and more. The finished product more than exceeded my expectations. But this was the best part: Designing a website takes a lot of work. Not just technical work on the designers end, but a lot of brainstorming, collaboration, and trying to bring someone else's ideas to fruition on a screen. I'm an artist that does so many different things, so it has always been a struggle for me trying to create one simple website with everything. I never thought that I would have a website so perfect for what I do! Gab was so easy to work with. She was **friendly, compassionate, understanding, and she really knows what she is doing**. She worked so hard on creating the most beautiful website **quickly, efficiently, creatively and carefully**, and what I like the most is that she really taught me how to fish. Meaning, her whole **goal was to set up a website that I would easily be able to update myself**. That means she would regularly send me **video tutorials, she would write up instructions for me**, and if there was ever an update that I needed her help with, **she got back to me right away**.

After she designed my website, I asked her to help me create a press kit for my one woman musical. She put the same care and expertise into that process. There was a lot of back-and-forth, which she was so **receptive** to, and she created an amazing press kit that I am proud to send out! I honestly recommend Gab as the first person to reach out to for any kind of website or press kit design!!!

"Gabrielle Filloux's web design and branding abilities are amazing!!! I came into the process of making my website, very nervous and stressed, due to not knowing anything about it and not even knowing where to start. But Gabrielle Filloux listened to everything I had in mind and created a website I could not be happier with. She absolutely **got the sense of who I am and my brand**, and was able to create a beautiful and very organized website that any professional would be impressed with. She is also an actor as well as a great web designer. So if you are an actor, in need of a professional acting website, Gabrielle Filloux **has the insight of an actor and knows the ins and outs of the business**, and knows exactly what will make you stand out. You can't go wrong with. She is a true talent and I don't know how she does it."

"Gabrielle is fabulous – she is able to listen and understand what each individual is trying to communicate with their website, and then be able to execute that in **super creative** ways! She is **a great collaborator, efficient and UBER reliable!** She also made working on a website a fun and imaginative experience, which I didn't think it could be! Thank you, Gab!"
